AMENDMENTS

In the Specification

The following is a marked-up version of the specification with the language that is underlined ("___") being added and the language that contains strikethrough ("——") being deleted:

For the paragraph beginning on page 1, line 16:

FIGS. 2A and 2B illustrate data flows typically exhibited when a print task is printed using system 10. In FIG. 2A, a user can print a print task by sending the print task from computer 12A to the local printer 16A indirectly through the server 18 via a wireline connection. The user can also print a print task by sending the print task to the network printer 14. In FIG. 2B, a user can print a print task by sending the print tasks from computer 12B to a network printer 14. In addition, the user can print a print task by sending the print task directly to the local printer 16B via a wireline connection.
